- d. **Primary Internet Address (URL):** www.CoreLogic.com

**3. Does the data broker permit a consumer to opt out of the data broker's collection of brokered personal information, opt out of its databases or opt out of certain sales of data? ☒ Yes ☐ No***If so:***a. What was the method for requesting an opt-out?**

While CoreLogic Solutions does not perform direct marketing to consumers, we understand that our clients (Mortgage and Real Estate professionals) might use our public records data to mail marketing material. Therefore, we created an Opt-Out process almost 20 years ago to allow consumers to manage this type of marketing. Consumers are instructed on our Privacy page to send these requests to [privacy@corelogic.com](mailto:privacy@corelogic.com)

**b. If the opt-out applied to only certain activities or sales, which ones?**

Sales or marketing material mailed by our clients. CoreLogic maintains a B2B business model and any consumer Opt-Out requests we receive are used to suppress the creation of mailing labels in our products or an opt-out indicator is provided to our clients if they receive our data through bulk extracts.

**c. Does the data broker permit a consumer to authorize a third party to perform the opt-out on the consumer's behalf?**

Opt-Out requests do require a verification of the authenticity of the consumer, however we do accept requests from attorneys or other agents that can confirm a relationship to the consumer for which they make the request.

**4. Statement specifying the data collection, databases or sales activities from which a consumer may not have opted out during the prior year:**

CoreLogic Solutions is a processor of real property records obtained from local Tax Assessor and Property Recorder's offices. These records are normalized and provided to our clients for Mortgage and Real Estate related activities. Consumers may opt-out of marketing activities, but they may not opt out of data collection from public records unless required by law. This data is often used for fraud mitigation and any discrepancies must be resolved at the appropriate government office.

**5. Statement regarding whether the data broker implemented a purchaser credentialing process during the prior year:**

CoreLogic Solutions is a Business-to-Business model and our clients are contractually bound to follow all State and Federal laws that surround the proper usage of data and information security requirements that govern the federal banking institutions. Since CoreLogic Solutions does not process sensitive data regulated by FCRA, no on-site client facility visitations or credentialing are performed.

**6. The number of security breaches that the data broker experienced during the prior year: 0 .**

**Total number of consumers affected by the breaches:** 0 .
